Limited Modular Approval. Output power listed is conducted. Host systems must provide regulated supply voltages to the module. Compliance of this device in all final host configurations is the responsibility of the Grantee. The antenna(s) used for this transmitter must be installed to provide a separation distance of at least 20 cm from all persons and not be co-located with any other transmitters except in accordance with FCC multi-transmitter product procedures. OEM integrators and end-users must be provided with antenna installation instructions and transmitter operating conditions for satisfying RF exposure compliance.
